

NHG Introductory Meeting Facilitator Guide

Thank you so much for offering to facilitate the NHG Introductory Meeting!

The goal of the meeting is to introduce NHG students to the call-in process, the meeting format, review the syllabus, and to field questions they might have before the NHG study officially begins on January 1. Students might need extra guidance and support with 'settling in' once they arrive at the call, especially as that first call-in process can be shaky. I remember finding it all so foreign and a bit disorienting my first time around!

Helpful Information and Documents:

- *The NHG Syllabus* is available on the [Schedule and Reading Guides](#) page.

Note: We have removed dates from the Syllabus so you might find it helpful to use the [Schedule and Reading Guides](#) page as a reference for NHG dates.

- *Call in numbers* are available on the [Attend an NHG Meeting](#) page.

- *Last year's NHG Intro Meeting* recording can be found [HERE](#).

Since the Intro Meeting will be occurring before the Facilitator Huddle, you can listen to the Facilitator Huddle recording from last year [HERE](#) if a general NHG facilitating refresher is helpful!

I adapted a short script below for opening and closing the meeting:

Start Recording: Press *9 to start or stop recording.

● **Welcome the group:** Example - Welcome. <Breathe> Today is Saturday December 18th, and this is the Introductory Meeting for the Neurosis & Human Growth Book Study. This meeting will run for approximately 90 minutes. As a reminder, this is simply an introduction to the study, and we will begin going over the material from Neurosis and Human Growth at the first official meeting on Saturday, January 1, 2022.

****you might remind students to put themselves on mute before presenting****

● **Begin Presenting:** Ask the group to present only their name and where they are calling from. Ex - "Let's start with presenting, beginning with those who are calling from the east coast or beyond, and then moving west. Would everyone please state only their first name (or nickname), what city or state they are calling from, and if they are sharing a line with someone. I can go first. My name is _____. I'm calling from _____. OK? East coast take it away."

● **After everyone has presented:**

"Alright, welcome everyone. We will read through the NHG Syllabus and take time to

review questions along the way. Nancy/other facilitator/vetran KF Member, would you be able to read the syllabus introduction?"

● **When closing the meeting:**

"Thank you for joining us for the NHG Introductory Meeting. As a reminder, you will be able to access a recording of this call by using the phone number and access code provided in the Welcome email sent by the KF Admin Team. These numbers can also be found on the on the **KF website** under the **Attend NHG Meetings** page "

If Nancy is on the call, you might ask if she would like to read the first page of the syllabus.

You can ask meeting attendees- both new NHG students and vetran KF members- to read the subsequent sections of the Syllabus (similar to a KF meeting).

I recommend pausing to invite questions from the group after the following sections:

- **KF eligibility** (header: *NHG is a prerequisite for KF. To be eligible for KF membership you must:*)

- **Course Materials**

- **NHG Book Study Schedule**

*For this section, you do not have to read through each week. I recommend reviewing the Introductory Week 1-5 points, and sharing that NHG Chapters 1-11 will be reviewed over the course of the 8 week study. You might find it helpful to listen to how this section was covered in recording of last year's Intro Meeting (at minute 28:57).

- **How to call into an NHG Meeting**

Nancy might have additional questions/invitations to pause moments throughout the call, too :) I always like to take a breath during these moments!

Let me know if you have any questions about this email or the NHG Intro Meeting.

Thank you both again for your gift of support for the new students!
