

KF15 Meeting Questions

Facilitator Tip: When asking questions, try to follow the lead of the group. For example, if a member offers an answer to a question or they share a struggle they might be experiencing, ask the group if anyone else is experiencing the same thing. Since you are not counseling or giving advice, you can peacefully help group members simply express their reality moderately.

If the group is not responding to the questions, wait for 10 seconds and then go to the next item on the schedule even if you are ahead of time. The collective wisdom of the group might be allowing time for discussion later in the meeting.

NOTE: In this lesson, there is extra reading for the facilitator, so be sure to go over the notes.

Ask whichever questions are of interest to you. After someone responds to a question, you can ask the group if anyone else feels the same or has had a similar experience.
