

KF32 Meeting Questions

Facilitator Tip: After you ask the group a question, allow 15 seconds of silence as the group processes. Try not to waste precious seconds telling the group how much time is available for their comments. Forcing a reminder of the time on the group can shut down free discussion. You can be flexible with the meeting schedule and allow a time margin of 30 seconds or a minute for questions. There is usually time available in other parts of the meeting to guide the meeting back on schedule.

Ask whichever questions are of interest to you. After someone responds to a question, you can ask the group if anyone else feels the same or has had a similar experience.
