

KF40 Meeting Questions

Facilitator Tip: Many thanks to all of you who serve the KF community by courageously reading the lessons in a comfortable and confident manner. Even the most confident readers can trip over new vocabulary, such as *predilection*, *dawdle*, and *perineum*. A predilection (pre-di-LEC-tion) is a bias in favor of something. Dawdle (DAW-dle) means to linger, dally, and to waste time. Perineum (peri-NEE-um) refers to the group of muscles at the base of the torso. It's a good idea to go over the notes before the meeting and prepare to pronounce the vocabulary correctly.

For the Three-Part Breath, use a timer or stopwatch to count the pace of the breathing—one count per second.

Ask whichever questions are of interest to you. After someone responds to a question, you can ask the group if anyone else feels the same or has had a similar experience.

- *From KF6: "Makrothumos, the first quality of agape love, means long-tempered as opposed to short-tempered. It is sometimes translated as long-suffering. When you choose long-suffering, however, you are not choosing to just suffer for a long time. Makrothumos is strategic. It has a purpose in view and can use your discomfort to achieve that purpose."*
